

Public First polling for ZeroC Commission

Fieldwork: June 2nd - June 4th 2020
Interview method: Online Survey
Population represented: UK Adults
Sample size: 2014

Methodology:

All results are weighted using Iterative Proportional Fitting, or 'Raking'. The results are weighted by age, gender, region, Social Grade. Target proportions are derived from census data.

Public First is a member of the BPC and abides by its rules. For more information please contact Seb Wride (seb@publicfirst.co.uk)

List of Tables

1	In a typical year, thinking back to before disruptions caused by Coronavirus, how many trips for personal travel would you take by plane?Please count return trips as one trip	7
2	In a typical year, thinking back to before disruptions caused by Coronavirus, how many trips for travel related to business would you take by plane?Please count return trips as one trip	9
3	Have you had to cancel any international trips this year as a result of the Coronavirus outbreak?Please count return trips as one trip	11
4	What type of heating does your house primarily have?Please think about the way in which your house’s central heating works	13
5	Other (Please Specify):What type of heating does your house primarily have?Please think about the way in which your house’s central heating works	15
6	How much do you spend in an average month on gas?This may be for your house’s heating or for a gas stove	17
7	How much do you spend in an average month on electricity?Please think about your house’s general electricity supply	19
8	Do you own, or have access to a car on a daily basis?	21
9	Thinking back to before Coronavirus in the UK, how often did you use a car, on average	23
10	Compared with before coronavirus, in a year’s time do you think you will be using a car...	25
11	If you were looking to make a long journey to somewhere else in the UK, how would you most likely make this journey? Please think about how you would typically have made this journey prior to the restrictions introduce in response to Coronavirus	27
12	If you were making a long journey (e.g. international or across the country) and rail travel was cheaper than flying, although journey times were longer, do you think you would choose to travel by train or plane?	29
13	You said you would probably choose to travel by plane. Which of the following reasons explains why?Select any which apply	31
14	You said you would probably choose to travel by train. Which of the following reasons explains why?Select any which apply	33
15	Taking everything into account, how long do you think it will take the UK’s economy to recover from Coronavirus?	35
16	How do you think the UK will fare compared to other countries in terms of economic recovery?	37
17	Just to check, which of the following best describes your current working status?	39
18	How confident are you that you will still be in employment for the twelve months?	41
19	Thinking about your own personal finances for the next twelve months, what do you expect to happen?	43
20	Rank Summary: Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take (Ordered Left to Right by Rank)	45
21	Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take: A recovery which focuses on being as fast as possible	46
22	Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take: A recovery which focuses on being as environmentally friendly as possible	48
23	Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take: A recovery which focuses on getting people back into work as soon as possible	50
24	Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take: A recovery which focuses on keeping the rate of infections as low as possible	52
25	Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take: A recovery which focuses on ensuring as many people have access to housing as possible	54
26	Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take: A recovery which focuses on ending travel restrictions as soon as possible	56

27 Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take: A recovery which focuses on returning children and students to education as soon as possible 58

28 Thinking about the country’s recovery from, please rank the following approaches which the UK Government may take: A recovery which focuses on supporting other recovering countries as much as possible 60

29 Which of the following would you support the Government doing in order to recover from Coronavirus as quickly as possible?Please select any which you would support the Government’s decision to do 62

30 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Working from home 64

31 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Travelling for work e.g. to conferences or meetings 66

32 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Using public transport 68

33 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Cycling 70

34 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Driving 72

35 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Taking holidays abroad 74

36 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Attending large public gatherings e.g. festivals, going to the cinema, football matches 76

37 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Using streaming services (such as Netflix or Amazon Prime Video) 78

38 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Meeting with friends over video-calls 80

39 Thinking forward to a few years from now, do you think that there will be any lasting changes as a result of the Coronavirus/lockdown in the UK?For each of the following, indicate if you think it will be more common, less common, or about the same as a result of the virus/lockdown: Going to restaurants / pubs 82

40 Which of the following would you say are the most important priorities for the UK Government coming out of the Coronavirus?Please select up to three 84

41 Before the Coronavirus outbreak in the UK, the Government announced plans to achieve Net Zero in the UK by 2050. Prior to taking this poll, had you heard of this plan? 86

42 As far as you are aware, what does the phrase “Net Zero” refer to?Don’t worry if you do not know the answer, we are trying to understand how widely used the phrase is 88

43 Before the Coronavirus outbreak in the UK, the Government announced plans to achieve Net Zero carbon emissions in the UK by 2050. Do you support or oppose this policy? 90

44 You said you tend to support the Government’s plans to achieves Net Zero carbon emissions in the UK by 2050. Which of the following best explains why?Select any which apply 92

45 You said you tend to oppose the Government’s plans to achieves Net Zero carbon emissions in the UK by 2050. Which of the following best explains why?Select any which apply 94

46 Do you think the Government should delay the 2050 Net Zero plan to focus on the economy in the wake of the Coronavirus? 96

47 Which of the following environmental concerns are you most worried about, if any?Please select up to three 98

48 In general, do you agree or disagree with the following statements?: The UK Government can be trusted to do what is best for the environment 100

49 In general, do you agree or disagree with the following statements?: It is impossible to stop global warming without other countries changing the way they act 102

50 In general, do you agree or disagree with the following statements?: The UK is the country most responsible for Global Warming 104

51 In general, do you agree or disagree with the following statements?: Global warming is less of a concern than plastics in the oceans 106

52 In general, do you agree or disagree with the following statements?: We are already too late to stop Global Warming 108

53 How seriously do you take the issue of climate change? 110

54 Whose responsibility do you think tackling climate change in the UK should mainly be?You may select up to three 112

55 Some have argued that focussing on the environment during the Coronavirus recovery period will help the UK economically recover faster, whilst others have argued that it will slow the economic recovery down. Instinctively, which do you think is more likely? 114

56 Do you agree or disagree with the following?: I have been more aware of nature/the natural environment since the lockdown 116

57 Do you agree or disagree with the following?: I have personally noticed an improvement in air quality in my local area since the lockdown 118

58 Do you agree or disagree with the following?: We need to focus on recovering the economy after Coronavirus 120

59 Do you agree or disagree with the following?: The Coronavirus situation provides a good opportunity to change the way our society works 122

60 Do you agree or disagree with the following?: The Coronavirus has shown we can run our society in a more environmentally friendly way 124

61 Do you agree or disagree with the following?: Investing in an environmentally friendly economy is the best way to help our economy recover 126

62 Which of the following comes closest to your view? 128

63 You said the Government should focus on a fast economic recovery, even if it’s not environmentally friendly. What are the main reasons for this?Please select any which apply 130

64 Coming out of the coronavirus, the Government only provides financial support to businesses which agree to be environmentally friendly 132

65 The Government provides loans for conducting energy efficient improvements in homes 134

66 The Government raises taxes on big businesses that produce the most pollution, but small businesses are exempt 136

67 The Government raises taxes on all businesses (big and small) that produce the most pollution 138

68 The Government raises taxes so that more polluting heat sources (such as gas) become more expensive for the public, but some of the revenue raised would be returned to households to compensate for higher energy bills. 140

69 The Government raises taxes on frequent fliers and business class fliers (making their tickets more expensive) because they cause more air pollution . . . 142

70 The Government imposes a floor price on petrol so that it remains the same even when oil prices drop. They invest the extra money in clean energy. . . 144

71 The Government provides grants for businesses to invest in low carbon technology 146

72 The Government bans plastic packaging 148

73 The Government raises taxes on businesses using plastic packaging 150

74 Rank Summary: Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below (Ordered Left to Right by Rank) 152

75 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : Coming out of the coronavirus, the Government only helps businesses which agree to become more environmentally friendly 153

76 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government provides loans for conducting energy efficient improvements in homes 155

77 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government raises taxes on big businesses that produce the most pollution, but small businesses are exempt 157

78 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government raises taxes on all businesses (big and small) that produce the most pollution 159

79 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government raises taxes so that more polluting heat sources (such as gas) become more expensive for the public, but some of the revenue raises would be returned to households to compensate for higher energy bills. 161

80 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government raises taxes on frequent fliers and business class fliers (making their tickets more expensive) because they cause more air pollution 163

81 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government imposes a floor price on petrol so that it remains the same even when oil prices drop. They invest the extra money in clean energy 165

82 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government provides grants for businesses to invest in low carbon technology 167

83 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government bans plastic packaging 169

84 Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below : The Government raises taxes on businesses using plastic packaging 171

85 Now imagine the following was introduced in the UK; how likely would you be to support or oppose it? A standard would be introduced to limit the carbon emissions from energy use in your property. You would have several years notice before the standard would become binding.If you go above that limit, you would have to buy carbon credits via your supplier, which would increase your energy bill.If you go below that limit, your supplier would credit (i.e. decrease) your energy bill, to encourage people to take up low carbon energy. This would go alongside other measures to make the economy greener and help the poorest use cleaner energy 173

86 Now imagine the following was introduced in the UK; how likely would you be to support or oppose it? A price would be charged for the emissions of your property. You would have several years before it came into effect.If you reduce your emissions you pay less on your energy bill. If you increase your emissions you pay more on your energy bill All the money collected could be used to reduce taxes for all but the wealthiest and to fund energy efficiency in homes This would go alongside other measures to make the economy greener and help the poorest use cleaner energy 175

87 Which of the following do you think would be the most likely result of increasing taxation on those businesses which have the highest carbon emissions?Please select up to three 177

88 If the Government was to raise environmental taxes, which of the following would you prefer the revenue to be used for?Please select up to three 179

89 Rank Summary: If the Government was to return the money raised from environmental taxes to the consumer, which of these options would you preferPlease rank your top three from the below (Ordered Left to Right by Rank) 181

90 If the Government was to return the money raised from environmental taxes to the consumer, which of these options would you preferPlease rank your top three from the below: Discount applied directly to energy bill 182

91 If the Government was to return the money raised from environmental taxes to the consumer, which of these options would you preferPlease rank your top three from the below: Discount on income tax 184

92 If the Government was to return the money raised from environmental taxes to the consumer, which of these options would you preferPlease rank your top three from the below: A check in the mail or direct deposit in bank account 186

93 If the Government was to return the money raised from environmental taxes to the consumer, which of these options would you preferPlease rank your top three from the below: Credit to be spent on energy efficiency improvements in the home 188

94 Broadly, how would you prefer the UK Government to approach businesses on Climate Change 190

95 Here are some measures the government could take to tackle air pollution after Coronavirus. For each of the following please indicate if you Support or Oppose the idea: Make it more expensive to drive in cities by increasing the congestion charge 192

96 Here are some measures the government could take to tackle air pollution after Coronavirus. For each of the following please indicate if you Support or Oppose the idea: Not allow people to drive their kids to school if they live less than 2 miles away 194

97 Here are some measures the government could take to tackle air pollution after Coronavirus. For each of the following please indicate if you Support or Oppose the idea: Charge more for petrol to discourage driving 196

98 Here are some measures the government could take to tackle air pollution after Coronavirus. For each of the following please indicate if you Support or Oppose the idea: Government offers grants to help people purchase electric vehicles 198

99 Here are some measures the government could take to tackle air pollution after Coronavirus. For each of the following please indicate if you Support or Oppose the idea: Government expands public transport provision in the UK 200

100 Do you own an electric vehicle? 202

101 What has prevented you from buying an electric vehicle, if anything?Please select any which apply 204

102 Do you agree or disagree with the following?: The economy is very fragile and we cannot raise more taxes on any businesses even if they are polluting . . 206

103 Do you agree or disagree with the following?: We will have to raise money to pay for Coronavirus, and I would rather it was paid by polluting businesses 208

104 Do you agree or disagree with the following?: The Coronavirus recovery period provides a good opportunity to change many things in the UK economy . 210

105 Do you agree or disagree with the following?: Raising taxes tends to do more harm than good 212

106 Do you agree or disagree with the following?: Raising taxes on businesses ultimately pushes the costs onto consumers as the businesses will raise prices . 214

107 Have you ever been offered help by the Government or your energy company to increase the energy efficiency of your home? 216

108 You said that you had been offered help to increase the energy efficiency of your home. Did you take up this offer, at least in part? 218

109 If you didn't take up any part of the offer, why not?Select any which apply 220

110 There is a line on your energy bill which relates to 'green taxes'. Before taking this survey, were you aware of this? 222

111 Ireland recently announced a new 'carbon tax' which increased the price of gas by about £10 a year. It is designed to encourage gas companies and households to switch to greener fuel. Do you think this is a good or bad idea? 224

112 Canada taxes fossil fuel companies for the pollution they produce. This raises electricity and price bills, but the money raised is given back to households as money off taxes they pay. Do you think this is a good or bad idea? 226

113 Do you think we as a country should do more or less to encourage people to switch to greener energy in their home? 228

114 Finally, what effect, if any, do you think the following policies would have on the UK's negative impact on the environment?: Raising taxes on companies which use more plastic packaging 230

115 Finally, what effect, if any, do you think the following policies would have on the UK's negative impact on the environment?: Raising taxes on companies which have higher carbon emissions 232

116 Finally, what effect, if any, do you think the following policies would have on the UK's negative impact on the environment?: Government loans to help individuals transition to more environmentally friendly lifestyles 234

117 Finally, what effect, if any, do you think the following policies would have on the UK's negative impact on the environment?: Increased congestion charge in urban areas to increase the cost of driving 236

118 Finally, what effect, if any, do you think the following policies would have on the UK's negative impact on the environment?: Banning plastic packaging entirely 238

119 Finally, what effect, if any, do you think the following policies would have on the UK's negative impact on the environment?: Banning petrol cars 240

(1.A) In a typical year, thinking back to before disruptions caused by Coronavirus, how many trips for personal travel would you take by plane? Please count return trips as one trip

Public First polling for ZeroC Commission

Rank Summary: Thinking about these various policies, which would you say your support the most (if you do not support any of them, please think of those you oppose the least)Please rank your top three below (Ordered Left to Right by Rank)

	1. The Government raises taxes on big businesses that produce the most pollution, but small businesses are exempt	2. The Government bans plastic packaging	3. The Government raises taxes on all businesses (big and small) that produce the most pollution	4. The Government raises taxes on frequent fliers and business class fliers (making their tickets more expensive) because they cause more air pollution	5. The Government provides grants for businesses to invest in low carbon technology	6. The Government raises taxes on businesses using plastic packaging	7. The Government provides loans for conducting energy efficient improvements in homes	8. Coming out of the coronavirus, the Government only helps businesses which agree to become more environmentally friendly	9. The Government imposes a floor price on petrol so that it remains the same even when oil prices drop. They invest the extra money in clean energy	10. The Government raises taxes so that more polluting heat sources (such as gas) become more expensive for the public, but some of the revenue raises would be returned to households to compensate for higher energy bills.

(85.A) Now imagine the following was introduced in the UK; how likely would you be to support or oppose it? A standard would be introduced to limit the carbon emissions from energy use in your property. You would have several years notice before the standard would become binding. If you go above that limit, you would have to buy carbon credits via your supplier, which would increase your energy bill. If you go below that limit, your supplier would credit (i.e. decrease) your energy bill, to encourage people to take up low carbon energy. This would go alongside other measures to make the economy greener and help the poorest use cleaner energy
