# Public First Poll on Artificial Intelligence (USA) 

Fieldwork:<br>Interview method: Online Survey<br>Population represented: US Adults<br>Sample size:<br>2052

## Methodology:

All results are weighted using Iterative Proportional Fitting, or 'Raking'. The results are weighted by interlocking age \& gender, race, education level, and state to Nationally Representative Proportions

Public First is a member of the BPC and abides by its rules. For more information please contact the Public First Polling Team (polling@publicfirst.co.uk)

## List of Tables

1 Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Extraverted, enthusiastic.
2 Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Critical, quarrelsome.
3 Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Dependable, self-disciplined.
Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Anxious, easily upset.
5 Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Open to new experiences, complex.
6 Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Reserved, quiet.
Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Sympathetic, warm.
8 Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Disorganized, careless.
9 Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Calm, emotionally stable.
Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Conventional, uncreative.
11 Do you agree or disagree with the following?: The government should increase spending on public services like the NHS, even if it means people like me have to pay higher taxes.
Do you agree or disagree with the following?: Capitalism and free markets are two of the most important causes of the US's current wealth. Do you agree or disagree with the following?: We should ensure everyone receives a decent minimum income, even if they refuse to work.
 Do you agree or disagree with the following?: Adults should be able to say anything they like on the Internet, even if it hurts somebody's feelings. . . . . 34 Do you agree or disagree with the following?: The death penalty is justified for certain crimes. . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 36 Do you agree or disagree with the following?: It is more important to reduce carbon emissions that encourage economic growth. . . . . . . . . . . . . . . 38
16 Do you agree or disagree with the following?: It is more important to reduce carbon emissions that encourage economic growth. . . . . . . . . . . . . . . 38
17 Which of the following best describes how you interact with new technology? . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 40
18 Overall, how confident are you using new technology? ..... 42
Are you optimistic or pessimistic about the impact technology will have on the economy and society in the future? ..... 44
Which of the following leisure activities would you say that you do regularly?Select all that apply ..... 46
Have you watched any of the following films?Please select all that apply ..... 48
How familiar, if at all, are you with the following?: Artificial Intelligence (AI) ..... 50
How familiar, if at all, are you with the following?: Cryptocurrency ..... 52
How familiar, if at all, are you with the following?: Neural Net ..... 54
How familiar, if at all, are you with the following?: Panagosha ..... 56
You said you have heard of the following... Artificial Intelligence (AI). When did you first hear about this? ..... 58
You said you have heard of the following... Cryptocurrency. When did you first hear about this? ..... 60
You said you have heard of the following... Neural Net. When did you first hear about this? ..... 62
You said you have heard of the following... Panagosha. When did you first hear about this? ..... 64
In general, do you feel positive or negative about the following? Artificial Intelligence ..... 66
In general, do you feel positive or negative about the following? Cryptocurrency ..... 68
In general, do you feel positive or negative about the following? Neural Net ..... 70
In general, do you feel positive or negative about the following? Panagosha ..... 72
Have you personally heard of any of the following?Select any which apply ..... 74
Have you personally used this? Apple Siri ..... 76
Have you personally used this? Amazon Alexa ..... 78
Have you personally used this? Google Assistant ..... 80
Have you personally used this? ChatGPT ..... 82
Have you personally used this? Dall-E ..... 84
Have you personally used this? Stable Diffusion ..... 86
Have you personally used this? Midjourney ..... 88
Have you personally used this? Grammarly ..... 90
There has recently been some discussion in the news about "Artificial Intelligence" or "AI". This is where computers are used to carry out tasks which would normally need a human to do them. How much would you say you know about "AI"? ..... 92
Based on what you know, which of the following comes closest to your view? ..... 94
As far as you are aware, which of the following list of things do you believe AI tools are currently able to do at human level, or above? Please select all that apply ..... 96
Which of the following do you think AI will be able to do in the next ten years, if any? ..... 98
47 In general, how would you describe the way you currently feel about AI?Select any which apply ..... 100
48 Assuming that the technology was affordable, which of the following, if any, would you be interested in using Artificial Intelligence for in your day-to-day life?Select any which apply ..... 102
49 There are a number of scenarios in which it has been suggested that AI could be used in place of human decision makers. Looking at the below, in which of the following scenarios, if any, would you be comfortable with the decision or task being taken by an AI rather than a human?Select any that apply ..... 104And looking at the same scenarios, in which of these, if any,
final decision or undertakes the task?Select any which apply106
51 Looking at the following, for which would you currently expect an AI to be better than a human at, and which would you expect a human to be better than an AI at?: Making a fair hiring decision ..... 108
52 Looking at the following, for which would you currently expect an AI to be better than a human at, and which would you expect a human to be better than an AI at?: Correctly diagnosing a patient's illness from the symptoms
53 Looking at the following, for which would you currently expect an AI to be better than a human at, and which would you expect a human to be better than an AI at?: Finding trends in data .
54 Looking at the following, for which would you currently expect an AI to be better than a human at, and which would you expect a human to be better than an AI at?: Transcribing words spoken in a voice call112
55 Looking at the following, for which would you currently expect an AI to be better than a human at, and which would you expect a human to be better than an AI at?: Making a decision about whether to launch a nuclear weapon.6 Looking at the following, for which would you currently expect an AI to be better than a human at, and which would you expect a human to be betterthan an AI at?: Knowing what to say to a patient during therapy116
11857 And if you think ahead to 10 years time, for which would you expect an AI to be better than a human at, and which would you expect a human to bebetter than an AI at?: Making a fair hiring decision
12058 And if you think ahead to 10 years time, for which would you expect an AI to be better than a human at, and which would you expect a human to bebetter than an AI at?: Correctly diagnosing a patient's illness from the symptoms59 And if you think ahead to 10 years time, for which would you expect an AI to be better than a human at, and which would you expect a human to be122
better than an AI at?: Finding trends in data ..... 12460 And if you think ahead to 10 years time, for which would you expect an AI to be better than a human at, and which would you expect a human to be
better than an AI at?: Transcribing words spoken in a voice call ..... 126
61 And if you think ahead to 10 years time, for which would you expect an AI to be better than a human at, and which would you expect a human to be better than an AI at?: Making a decision about whether to launch a nuclear weapon ..... 128
62 And if you think ahead to 10 years time, for which would you expect an AI to be better than a human at, and which would you expect a human to be better than an AI at?: Knowing what to say to a patient during therapy ..... 130
63 Thinking specifically about education and schooling, which of the following ways which children could use AI during their education do you think should be allowed, if any?Select any which apply ..... 132
64 Which of the following comes closest to your view? ..... 134
65 Which of the following comes closest to your view? ..... 136
66 Which of the following comes closest to your view? ..... 138
67 ..... 140
Do you agree or disagree with the following?: We should ban children from using AI tools for homework ..... 142
69 Do you agree or disagree with the following?: We should ban children from using AI tools for exams ..... 144
Do you agree or disagree with the following?: Banning AI tools is as pointless as banning the calculator ..... 146
Do you agree or disagree with the following?: It will be impossible to stop children using AI tools for their homework ..... 148
Do you agree or disagree with the following?: Children need to learn how to use AI tools for the rest of their career ..... 150
Do you agree or disagree with the following?: The rise of AI is inevitable so we might as well let children use it as much as they can so they're expert in it152
Modern AI models are trained by learning from massive amounts of existing text or images. Which of the following comes closest to your view? ..... 154
Thinking now about when a human is learning, which of the following comes closest to your view? ..... 156
76 You answered differently for what AI and human learners should have access to. In your view, why should we have different approaches to learning done by humans and AI?Select any which apply ..... 158
77 For each of the following, please indicate whether you believe humans should be able to use AI in this way or not?: Ask an AI how to build a bomb ..... 160
78 For each of the following, please indicate whether you believe humans should be able to use AI in this way or not?: Ask an AI how to shoplift ..... 162
79 For each of the following, please indicate whether you believe humans should be able to use AI in this way or not?: Use an AI image creator to produce pornographic images of fictitious people
80 For each of the following, please indicate whether you believe humans should be able to use AI in this way or not?: Use an AI image creator to produce pornographic images of real people
81 For each of the following, please indicate whether you believe humans should be able to use AI in this way or not?: Ask an AI for arguments against democracy
82 For each of the following, please indicate whether you believe humans should be able to use AI in this way or not?: Ask an AI for arguments in support of fascism . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 83 For each of the following, please indicate whether you believe humans should be able to use AI in this way or not?: Ask an AI for arguments in support170

of communism ..... 172
Who, if anyone, should decide what people are allowed to do with AI, and what they are not allowed to do?Select any which apply ..... 17485 Overall, what impact do you think AI is likely to have on unemployment, if any?
176
Thinking broadly about the possibility of AI doing more jobs across the economy and our society, which of the following comes closest to your view? . ..... 17886 Thinking broadly about the possibility of AI doing more jobs across the economy and o
87 Do you think AI could do your job better than you at some point in the next decade?Do you think AI could do your job better than you at some point in the distant future?82
If an AI was able to do your current job better than you, would you expect any of the following to happen?Please select all that apply ..... 184
Which of the following is closest to your view? ..... 186
As far as you are aware, which of the following countries, if any, would you say are leaders in AI research?Select up to three of the following ..... 188
92 Imagine an Artificial Intelligence was developed which could identify how old a person was through a camera. Would you support or oppose using AI like this in supermarkets to work out how old a customer was and automatically approve them or stop them buying age-restricted items? ..... 190
93 You said you would oppose using AI in supermarkets to work out customers' age for age-restricted purchases. Why is this?Select any which apply ..... 192
94 Which of the following comes closest to your view? ..... 194
How accurate do you think an AI would be at working out a person's age through a camera? ..... 196
And how accurate do you think an AI would have to be at working out a person's age through a camera before being rolled out across all stores? ..... 198
Imagine an Artificial Intelligence was developed which could diagnose people with conditions based on the symptoms they describe. Would you supportor oppose using AI like this in GPs and hospitals to diagnose patients? 200
98 You said you would oppose using AI to diagnose people with conditions based on their symptoms. Why is this?Select any which apply ..... 202
99 Would you support or oppose an AI making diagnoses in the following circumstances?: Patients are forced to use the AI algorithm ..... 204
100 Would you support or oppose an AI making diagnoses in the following circumstances?: Patients had the choice whether to use an AI or human doctor ..... 206
101 Would you support or oppose an AI making diagnoses in the following circumstances?: All diagnoses were double checked by a human doctor ..... 208
102 Would you support or oppose an AI making diagnoses in the following circumstances?: The AI has to provide a transparent explanation of why it made its diagnosis ..... 210
103 Would you support or oppose an AI making diagnoses in the following circumstances?: Each AI algorithm was first tested and approved by a government regulator ..... 212
104 Would you support or oppose an AI making diagnoses in the following circumstances?: A peer reviewed study had shown that the AI algorithm was at least as reliable as a human doctor .....  214
105 How accurate do you believe doctors currently tend to be when they make medical diagnoses? . ..... 216
106 How accurate do you think an AI would have to be in its diagnosis before being rolled out in doctors offices and hospitals? ..... 218
107 Which of the following comes closest to your view? ..... 220

108 Imagine an Artificial Intelligence was developed which was able to automatically recognise when a train passenger was posing a threat to others on the train, before they caused any trouble. Would you support or oppose a system like this being used to call train staff or transport police in advance of any trouble?

110 Which of the following comes closest to your view? . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 226
111 Do you think introducing this system would make trains safer or less safe? 226

112 Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that the following happened, assuming it was reported by a credible source?: A photorealistic scene from a TV or movie show is later revealed to have been entirely AI generated.
13 Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that the following happened, assuming it was reported by a credible source?: An AI written novel becomes a bestseller.
114 Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that the following happened, assuming it was reported by a credible source?: A car manufacturer creates a factory that is run entirely by robots, with no need for human workers.
115 Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that the following happened, assuming it was reported by a credible source?: An online retailer starts delivering the majority of its packages through autonomous drones.
16 Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that the following happened, assuming it was reported by a credible source?: A household robot goes on sale that can clean your house as well as any human.
117 Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that
the following happened, assuming it was reported by a credible source?: An autonomous drone shoots an innocent bystander by mistake . . . . . . . . .
Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that

the following happened, assuming it was reported by a credible source?: A swarm of autonomous drones is used to assassinate someone in the US

119 Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that the following happened, assuming it was reported by a credible source?: Robotic soldiers are used in active warfare
120 Imagine that the following were reported or recorded by a credible and trustworthy source in the next 5 years. How surprised would you be to hear that the following happened, assuming it was reported by a credible source?: An AI chatbot claims to be conscious, and asks to be freed from its programmer 246
121 In your opinion, when is an AI - either a computer program or a robot - likely to be first developed that is as smart as a human?
122 Which of the following, if any, would an AI have to do to be as smart as a human in your view?Select all that apply . . . . . . . . . . . . . . . . . . . . . 250
123 And which of the following, if any, would an AI have to do to be considered conscious?Select all that apply . . . . . . . . . . . . . . . . . . . . . . . . . . 252
124 Thinking about the intelligence of the following animals, which do you think most closely matches the intelligence of the most advanced AI today? . . . . 254
125 In general, which of the following beings do you think is able to feel pain?: Goldfish . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 256
126 In general, which of the following beings do you think is able to feel pain?: Ant . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 258
127 In general, which of the following beings do you think is able to feel pain?: Crab . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 260
128 In general, which of the following beings do you think is able to feel pain?: Rabbit . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 262
129 In general which of the following beings do you think is able to feel pain? Cat
264
130 In general, which of the following beings do you think is able to feel pain?: Dog . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 266
131 In general, which of the following beings do you think is able to feel pain?: Pig . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 268
132 In general, which of the following beings do you think is able to feel pain?: Sheep . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 270
133 In general, which of the following beings do you think is able to feel pain?: Horse . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 272
134 In general, which of the following beings do you think is able to feel pain?: Monkey ..... 274
In general, which of the following beings do you think is able to feel pain?: Human baby ..... 276
136 In general, which of the following beings do you think is able to feel pain?: Human adult ..... 278
137 In general, which of the following beings do you think is able to feel pain?: Most advanced AIs currently available ..... 280
If an AI was developed which was considered as smart as a human, should it be treated equally to humans? ..... 282
139 If an AI was developed which felt pain like a human, should it be treated equally to humans? ..... 284
140 Imagine an AI was developed which was considered as smart as a human, and externally expressed pain and emotion in the same way a human does. Do you agree or disagree with the following?: An AI that is as smart as a human should have the same legal rights and protections as a human ..... 286
141 Imagine an AI was developed which was considered as smart as a human, and externally expressed pain and emotion in the same way a human does. Do you agree or disagree with the following?: An AI that is as smart as a human should be able to legally marry another human ..... 288
142 Imagine an AI was developed which was considered as smart as a human, and externally expressed pain and emotion in the same way a human does. Do you agree or disagree with the following?: An AI that is as smart as a human should be entitled to receive at least minimum wage for any work it does .....  290
143 Imagine an AI was developed which was considered as smart as a human, and externally expressed pain and emotion in the same way a human does. Do you agree or disagree with the following?: An AI that is as smart as a human should be able to vote in elections ..... 292
144 Imagine an AI was developed which was considered as smart as a human, and externally expressed pain and emotion in the same way a human does. Do you agree or disagree with the following?: An AI that is as smart as a human should be able to refuse to do tasks that it does not want to ..... 294
145 How worried are you about the potential dangers that might be caused by the following in the next fifty years?: Climate change ..... 296
146 How worried are you about the potential dangers that might be caused by the following in the next fifty years?: Global pandemic ..... 298
147 How worried are you about the potential dangers that might be caused by the following in the next fifty years?: Major international war ..... 300
148 How worried are you about the potential dangers that might be caused by the following in the next fifty years?: Terrorism ..... 302
149 How worried are you about the potential dangers that might be caused by the following in the next fifty years?: Nuclear war ..... 304
150 How worried are you about the potential dangers that might be caused by the following in the next fifty years?: Artificial Intelligence ..... 306
151 How worried are you about the potential dangers that might be caused by the following in the next fifty years?: Asteroid strike ..... 308
152 And for which of the same list of dangers do you think there is a real risk that it could lead to a breakdown in human civilization in the next fifty years?Please select all that apply ..... 310
153 Overall, do you think that the development of advanced AI is likely to make us richer or poorer as a society? ..... 312
154 Overall, do you think that the development of advanced AI is likely to make us safer or less safe? ..... 314
155 Which of the following, if any, do you think are the most important potential benefits from advanced AI? Please select up to three ..... 316
156 Which of the following, if any, do you think are the most important potential risks from advanced AI?Please select up to three ..... 318
157 Which of the following is closest to your view ..... 320
158 In the next section, we have given a list of potential government policies connected to the development of AI. For each idea, please say whether you think is a very good idea on a scale from 1-7, where $1=$ very bad idea and $7=$ very good idea.: Banning new research into AI ..... 322159 In the next section, we have given a list of potential government policies connected to the development of AI. For each idea, please say whether you thinkis a very good idea on a scale from 1-7, where $1=$ very bad idea and $7=$ very good idea.: Increasing government funding of AI research324
160 In the next section, we have given a list of potential government policies connected to the development of AI. For each idea, please say whether you think is a very good idea on a scale from 1-7, where $1=$ very bad idea and $7=$ very good idea.: Creating a new government regulatory agency similar to the Food and Drug Administration (FDA) to regulate the use of new AI models
161 In the next section, we have given a list of potential government policies connected to the development of AI. For each idea, please say whether you think is a very good idea on a scale from 1-7, where $1=$ very bad idea and $7=$ very good idea.: Introducing a new tax on the use of AI models

162 In the next section, we have given a list of potential government policies connected to the development of AI. For each idea, please say whether you think is a very good idea on a scale from 1-7, where $1=$ very bad idea and $7=$ very good idea.: Increasing the use of AI in the school curriculum . . . . . . . . . 33
163 Overall, what do you think the risk is that an advanced AI causes humanity to go extinct in the next hundred years?
163 Overall, what do you think the risk is that an advanced AI causes humanity to go extinct in the next hundred years? . . . . . . . . . . . . . . . . .
164 You said that you think that the likelihood of an advanced AI causing humanity to go extinct in the next hundred years is less than 1 in 100 (1 per cent). Which, if any, of the following are important reasons why you believe this?Please select all that apply

 enthusiastic.

|  | Total | Age |  |  |  |  |  | Ethnicity |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 18-24 | 25-34 | 35-44 | 45-54 | 55-64 | $65+$ | White | Black | Asian | Hispanic | Mixed/Other |
| Unweighted | 2052 | 290 | 285 | 288 | 309 | 347 | 533 | 1494 | 266 | 97 | 134 | 55 |
| Weighted | 2052 | 245 | 367 | 337 | 328 | 342 | 434 | 1230 | 274 | 121 | 378 | 43 |
| Disagree strongly | 11\% | 12\% | 11\% | 9\% | 12\% | 10\% | 11\% | 11\% | 12\% | 10\% | 9\% | 19\% |
| Disagree moderately | 11\% | 10\% | 10\% | 13\% | 10\% | $13 \%$ | 10\% | 11\% | $4 \%$ | 15\% | 15\% | $3 \%$ |
| Disagree a little | 11\% | 18\% | 6\% | 10\% | 11\% | 13\% | $13 \%$ | $12 \%$ | 14\% | 10\% | 9\% | 8\% |
| Neither agree nor disagree | 18\% | 19\% | 17\% | 17\% | 16\% | 18\% | 20\% | 17\% | 12\% | 24\% | 21\% | $34 \%$ |
| Agree a little | 22\% | 22\% | 26\% | 14\% | 24\% | 21\% | $24 \%$ | 22\% | 28\% | 11\% | 22\% | 19\% |
| Agree moderately | 15\% | 13\% | 11\% | 19\% | 12\% | 19\% | $16 \%$ | 17\% | 12\% | 18\% | 11\% | 13\% |
| Agree strongly | 12\% | 6\% | 18\% | 17\% | 15\% | 6\% | 7\% | 10\% | 18\% | 12\% | 13\% | 4\% |

Note:
BASE: All Respondents
Fieldwork: 8th Mar - 19th Mar 2023
Data weighted by interlocking age \& gender, race, education level, and state to Nationally Representative Proportions
(1.B) Here are a number of personality traits that may or may not apply to you. Please write a number next to each statement to indicate the extent to which you agree or disagree with that statement. You should rate the extent to which the pair of traits applies to you, even if one characteristic applies more strongly than the other.I see myself as:: Extraverted, enthusiastic.
