

Public First Poll for CEN

Fieldwork: 16th Aug - 24th Aug 2023
Interview method: Online Survey
Population represented: Adults in selected constituencies
Sample size: 1060

Methodology:

All results are weighted using Iterative Proportional Fitting, or 'Raking'. The results are weighted by interlocking age & gender to be representative of the constituencies

Public First is a member of the BPC and abides by its rules. For more information please contact the Public First Polling Team (polling@publicfirst.co.uk)

List of Tables

1	On a scale of 0 to 10, how likely or unlikely do you think you are to vote for the Conservative party at the next general election? Please indicate on the following scale where 0 means you will definitely not vote for the Conservative Party, and 10 means you definitely will vote for the Conservative Party. . .	6
2	On a scale of 0 to 10, how likely or unlikely do you think you are to vote for the Labour party at the next general election? Please indicate on the following scale where 0 means you will definitely not vote for the Labour Party, and 10 means you definitely will vote for the Labour Party.	9
3	Do you have a generally positive or negative opinion of the following?: Rishi Sunak	12
4	Do you have a generally positive or negative opinion of the following?: Keir Starmer	15
5	Do you have a generally positive or negative opinion of the following?: Nigel Farage	18
6	Do you have a generally positive or negative opinion of the following?: My local MP	21
7	Do you have a generally positive or negative opinion of the following?: The Conservative Party	24
8	Do you have a generally positive or negative opinion of the following?: The Labour Party	27
9	Do you have a generally positive or negative opinion of the following?: The Liberal Democrats	30
10	Do you have a generally positive or negative opinion of the following?: The Green Party	33
11	Do you have a generally positive or negative opinion of the following?: My local council	36
12	Which do you think are the most important issues facing the country at this time?Please select up to three of the following.	39
13	And what are the biggest issues facing your local area?Please select up to three of the following.	42
14	How much would you estimate that the house you currently live in is worth, if it was put on the market today?	45
15	If there was to be a new development or infrastructure project in your local area, which of the following would you most like to see?Select up to three. . .	48
16	And which of that same list would you least want to see built in your local area?	51
17	In general, would you support or oppose the building of the following within 3 miles of where you live?: A new onshore wind farm	54
18	In general, would you support or oppose the building of the following within 3 miles of where you live?: A new solar farm	57
19	In general, would you support or oppose the building of the following within 3 miles of where you live?: New pylons and power lines for carrying electricity from green developments	60
20	In general, would you support or oppose the building of the following within 3 miles of where you live?: An electricity substation for transforming energy from green developments	63
21	In general, would you support or oppose the building of the following within 3 miles of where you live?: New build homes	66
22	In general, would you support or oppose the building of the following within 3 miles of where you live?: A nuclear power plant	69
23	In general, would you support or oppose the building of the following within 3 miles of where you live?: A new (or re-opened) train station	72
24	In general, would you support or oppose the building of the following within 3 miles of where you live?: “Biodigesters” which turn organic waste into fertiliser	75
25	Imagine there was a proposal to build a wind farm in your area. How would you feel about this if it was built in the following areas?: In a location visible from a window in my home	78
26	Imagine there was a proposal to build a wind farm in your area. How would you feel about this if it was built in the following areas?: In an unused green space a few miles from my home, but not visible from the window	81
27	Imagine there was a proposal to build a wind farm in your area. How would you feel about this if it was built in the following areas?: In a location I often pass when I leave my home, such as by the main road	84
28	Imagine there was a proposal to build a wind farm in your area. How would you feel about this if it was built in the following areas?: In a location near a popular area for walking	87

29 Imagine there was a proposal to build a wind farm in your area. How would you feel about this if it was built in the following areas?: In an unused space in my area, but not near any homes 90

30 Imagine there was a proposal to build solar farms in your area. How would you feel about this if it was being built in the following areas?: In a location visible from a window in my home 93

31 Imagine there was a proposal to build solar farms in your area. How would you feel about this if it was being built in the following areas?: In unused green space a few miles from my home, but not visible from the window 96

32 Imagine there was a proposal to build solar farms in your area. How would you feel about this if it was being built in the following areas?: In a location which I pass whenever I leave my house, such as by the main road 99

33 Imagine there was a proposal to build solar farms in your area. How would you feel about this if it was being built in the following areas?: In a location near a popular area for walking 102

34 Imagine there was a proposal to build solar farms in your area. How would you feel about this if it was being built in the following areas?: In unused space in my area, but not near any homes 105

35 Thinking of wind farms, which of the following comes closest to your view? 108

36 Thinking of solar farms, which of the following comes closest to your view? 111

37 Thinking of overhead power lines and pylons for renewable energy, which of the following comes closest to your view? 114

38 Thinking about wind farms and your local area in general, which of the following comes closest to your view? 117

39 Thinking about solar panels and your local area in general, which of the following comes closest to your view? 120

40 Thinking about overhead power lines and your local area in general, which of the following comes closest to your view? 123

41 Do you agree or disagree with the following with regards to developments and infrastructure projects in general?: Developments in my area seem to just happen, despite opposition from local people 126

42 Do you agree or disagree with the following with regards to developments and infrastructure projects in general?: There are not enough opportunities for local people to express their opinion about developments in my area 129

43 Do you agree or disagree with the following with regards to developments and infrastructure projects in general?: It is too easy for local people to block new developments in my area 132

44 Do you agree or disagree with the following with regards to developments of renewable energy?: We are never going to build the renewable energy we need in the UK because we let local people stop new developments 135

45 Do you agree or disagree with the following with regards to developments of renewable energy?: It is too easy for businesses to build renewable energy developments without the say of local people 138

46 Which of the following, if any, do you think of as arguments in support of building wind turbines in your local area?Please select all that apply. 141

47 Which of the following, if any, do you think of as arguments against building wind turbines in your local area?Please select all that apply. 144

48 Based on what you know, which of the following comes closest to your view? 147

49 Which of the following, if any, do you think of as arguments in support of building solar farms in your local area?Please select all that apply. 150

50 Which of the following, if any, do you think of as arguments against building solar farms in your local area?Please select all that apply. 153

51 Based on what you know, which of the following comes closest to your view? 156

52 Which of the following, if any, do you think of as arguments for building overhead power lines and pylons for renewable energy in your local area?Please select all that apply. 159

53 Which of the following, if any, do you think of as arguments against building overhead power lines and pylons for renewable energy in your local area?Please select all that apply. 162

54 Based on what you know, which of the following comes closest to your view? 165

55 If you were to guess, which of the following do you think tend to be opposed to building renewable energy infrastructure (such as wind turbines, solar farms) in your constituency, if anyone? Select any which apply. 168

56 Which of the following comes closest to your view on renewable energy sources and housing in your area? 171

57 Which of the following comes closest to your view? 174

58 Would you be more or less likely to support local renewable energy developments in your area if you received the following benefits?: If you saved money on your energy bills each month 177

59 Would you be more or less likely to support local renewable energy developments in your area if you received the following benefits?: If the developer gave money to the local community through a community fund 180

60 Would you be more or less likely to support local renewable energy developments in your area if you received the following benefits?: If the developer created a fund to pay for renewable and energy-efficiency upgrades for local houses, including insulation, rooftop solar panels or boiler upgrades 183

61 Would you be more or less likely to support local renewable energy developments in your area if you received the following benefits?: If the developer invested in local infrastructure like public transport and public spaces 186

62 Would you be more or less likely to support local renewable energy developments in your area if you received the following benefits?: If the development led to the building of more affordable housing in the local area 189

63 Would you be more or less likely to support local renewable energy developments in your area if you received the following benefits?: If the developer offered to provide direct payments to each household in the local area 192

64 Would you be more or less likely to support local renewable energy developments in your area if you received the following benefits?: If the development was contracted to employ local businesses and workers in its construction 195

65 Which of the following comes closest to your view? 198

66 The Net Zero target is a target set in law to reduce the UK’s net greenhouse gas emissions by 100% by 2050 compared to 1990 levels. This is done by both reducing existing emissions, and actively removing greenhouse gases from the atmosphere. Do you support or oppose the UK’s plan to reach Net Zero by 2050? 201

67 In your opinion, which political party has the best approach to tackling climate change, if any? 204

68 Do you agree or disagree with the following about renewable energy (like wind farms, solar farms)?: The rollout of renewable energy in the UK has been too slow 207

69 Do you agree or disagree with the following about renewable energy (like wind farms, solar farms)?: We need to build more renewable energy sources in the UK 210

70 Do you agree or disagree with the following about renewable energy (like wind farms, solar farms)?: Building new renewable energy sources in the UK will ultimately bring down the cost of electricity 213

71 Do you agree or disagree with the following about renewable energy (like wind farms, solar farms)?: Without new renewable energy sources the UK is too dependent on Russia and other countries for energy 216

72 Do you agree or disagree with the following about renewable energy (like wind farms, solar farms)?: The UK cannot afford to build new renewable energy sources 219

73 Do you agree or disagree with the following about renewable energy (like wind farms, solar farms)?: The current approach to building renewable energy in the UK doesn’t take the impact on communities and nature enough into account 222

74 Do you know the party and name of your local MP? 225

75 Did you vote for your current local MP in the last election you had in your constituency? 228

76 As far as you are aware, what are your local MP’s views on the building of green energy sources (such as wind and solar power) in your constituency? . . 231

77 You said that your local MP is opposed to the building of green energy sources in your constituency. Why do you think this is? Please select all that apply. 234

78 Which of the following comes closest to your view? I want my local MP to... 237

79 You said you want your MP to block local renewable energy developments. Which political party do you think you would most trust to provide an MP who does this? 240

80 You said you want your MP to be neutral on local renewable energy developments. Which political party do you think you would most trust to provide an MP who does this? 243

81 You said you want your MP to encourage local renewable energy developments. Which political party do you think you would most trust to provide an MP who does this? 246

82 In general, which of the following is more important to you when deciding whether to vote for your local MP? 249

83 In general, which of the following is more important to you when deciding whether to vote for your local MP? 252

84 In general, which of the following is more important to you when deciding whether to vote for your local MP? 255

85 In general, which of the following is more important to you when deciding whether to vote for your local MP? 258

86 In general, which of the following is more important to you when deciding whether to vote for your local MP? 261

87 In general, which of the following is more important to you when deciding whether to vote for your local MP? 264

88 In general, which of the following is more important to you when deciding whether to vote for your local MP? 267

89 In general, which of the following is more important to you when deciding whether to vote for your local MP? 270

90 In general, which of the following comes closest to your view? 273

91 Have you ever personally been involved in a campaign in support of or opposition to a development or infrastructure project in your local area? By this, please think of actions such as writing to your local MP, starting a petition, or attending council meetings, posting on social media, etc. Please select all that apply. 276

92 You said you have been involved in a campaign to oppose a development or infrastructure project in your local area. Which of the following, if any, have you personally done?Please select all that apply. 279

93 You said you have been involved in a campaign to support a development or infrastructure project in your local area. Which of the following, if any, have you personally done?Please select all that apply. 282

94 Which of the following, if any, do you trust the opinions of when it comes to green energy developments in your area?Please select all that apply. 285

95 To what extent do you agree or disagree with the following statement? "I would be more in favour of local renewable infrastructure development if I felt that the Government had a cohesive national plan for renewable energy development." 288

96 How often, if at all, do you see posts or information about local developments in the following places?: Facebook 291

97 How often, if at all, do you see posts or information about local developments in the following places?: Twitter 294

98 How often, if at all, do you see posts or information about local developments in the following places?: Instagram 297

99 How often, if at all, do you see posts or information about local developments in the following places?: Whatsapp 300

100 How often, if at all, do you see posts or information about local developments in the following places?: TikTok 303

101 How often, if at all, do you see posts or information about local developments in the following places?: Reddit 306

102 How often, if at all, do you see posts or information about local developments in the following places?: Pinterest 309

103 How often, if at all, do you see posts or information about local developments in the following places?: LinkedIn 312

104 If you learned that wind energy was nine times cheaper than fossil fuel energy (e.g. oil and gas) for energy companies to buy, how would this affect your view on wind energy and your local area? 315

105 If you learned that solar energy was nine times cheaper than fossil fuel energy (e.g. oil and gas) for energy companies to buy, how would this affect your view on solar energy and your local area? 318

106 If you learned that one renewable energy developments or infrastructure projects had been blocked in your local area within the last five years, how would this affect your views? 321

107	If you learned that five renewable energy developments or infrastructure projects had been blocked in your local area within the last five years, how would this affect your views?	324
108	If you learned that ten renewable energy developments or infrastructure projects had been blocked in your local area within the last five years, how would this affect your views?	327

(1.A) On a scale of 0 to 10, how likely or unlikely do you think you are to vote for the Conservative party at the next general election? Please indicate on the following scale where 0 means you will definitely not vote for the Conservative Party, and 10 means you definitely will vote for the Conservative Party.

	Total	Gender		Age						Social Grade				EU 2016 Vote

(66.A) The Net Zero target is a target set in law to reduce the UK’s net greenhouse gas emissions by 100% by 2050 compared to 1990 levels. This is done by both reducing existing emissions, and actively removing greenhouse gases from the atmosphere. Do you support or oppose the UK’s plan to reach Net Zero by 2050?

Data weighted by interlocking age & gender to be representative of the constituencies

(66.B) The Net Zero target is a target set in law to reduce the UK’s net greenhouse gas emissions by 100% by 2050 compared to 1990 levels. This is done by both reducing existing emissions, and actively removing greenhouse gases from the atmosphere. Do you support or oppose the UK’s plan to reach Net Zero by 2050?
